AGED FARMER ROBBED BY FOUR UNMASKED MEN

SALEM OBSERVES ARMISTICE DAY AS BIG PARADE MOVES

Bells Toll, Whistles Blow At Eleventh Hour And Parade Follows.

SERVICES HELD AT SOLDIER'S GRAVE

Banquet For Veterans And Address By Pittsburgh Man Tonight.

Seven years ago the armistice was signed, ending the great war, bringing peace to a war-racked world and restoring thousands of soldiers to the life they had left when they took up arms against Germany and her allies.

Today citizens of Salem joined with the nation in celebrating the seventh anniversary of the momentous occasion. Scores of flags, an elaborate parade and several special services, participated in by a great number of former soldiers as well as citizens, were the means by which the city endeavored to show its appreciation for its ex-service men and those who fell in the line of duty.

Promptly at the hour of eleven the city's bells tolled the requiem for the dead and every where, on the streets in the homes and in the business houses, heads were bowed and silent homage paid to those who had given their lives for their country. At the end of the minute the shrill whistles blew, announcing the end of the period of silence and celebrating the happiness that came with the signing of the armistice.

Tonight's Services

Special services in charge of the legion were held at this time in Grandview cemetery at the grave of Charles H. Carey, Rev. H. L. Miller opened this service with a prayer and following this an honor guard fired three volleys over the grave of their dead comrade. The notes of the bugles, relayed into the city by three buzzers, ended the ceremony.

Several Salem stores closed afternoon in honor of the occasion and others suspended business from 1 to 3 p. m. A banquet will be held at 6:30 p. m. in the American Legion rooms and at 8:15 Dr. George Shelton of Pittsburgh will deliver an Armistice day address at the First Methodist church. The supper, which is for all ex-service men will be served by the Women's auxiliary.

The parade was the feature of the day and included representations from many organizations in the city. Following the march and his aides came the color guard consisting of former soldiers and sailors. Then came the Quaker City band which kept the marchers in the correct cadence with martial music.

In The Parade

Gold star mothers and G. A. R. veterans were accommodated in motor vehicles and immediately followed the band. Other organizations represented by the marchers included the Sons of Veterans, the Sons of Veterans auxiliary, city officials, Lutheran cadets, girl and boy scouts, fraternal organizations, Struthers and Salem football teams, Maccabees, Rebekahs and the Italian and Rumanian societies.

Many cars, gaily decorated in red, white and blue bunting, gave a lively touch of color to the procession. Two of the city's fire trucks, manned by firemen and rigged out in patriotic colors also were included.

Over a thousand school children were among the paraders all wearing the national colors. They were accompanied by their teachers and the school authorities.

DRAG DRIVER FROM BUS AND ROB HIM

BRYAN MEMORIAL CAMPAIGN OPENS IN DAYTON, TENN

Dayton, Tenn., Nov. 11.—The campaign to found a Bryan Memorial university here was off to a lively start today, with \$203.50 already pledged.

Rhea county's drive, for \$100,000 was greatly over-subscribed, the largest single donation coming from Mayor A. P. Haggard and his family, \$40,000.

The campaign will immediately be extended to cover every county in Tennessee; the plan being to organize Bryan clubs in each, and gradually branch out to other states.

F. E. Robinson, in whose drug store "it all started," wired Mrs. Bryan, The Commoner's widow, today of the over-subscription of Rhea county. Malcolm Lockhart of Atlanta has been placed in charge of raising the fund.

ANDERSON MURDER CASE IS GIVEN TO JURY LATE TODAY

Stribling, Engaged To Heiress, To Quit Boxing Ring Soon

New York, Nov. 11.—Walker Miller, southern boxing manager, was declared today to be authority for a report that Young Stribling, Georgia light heavyweight, may retire from boxing at the end of six months because he is engaged to a southern heiress, whose family objects to Stribling continuing in the ring.

Miller also declared that the Striblings cleaned up a half million dollars in Florida real estate and no longer are interested in big purses.

DR. BLAZER CASE MAY REACH JURY BEFORE TONIGHT

State Rests As Alienists Give Conflicting Testimony At Trial

Littleton, Colo., Nov. 11.—The emotional drama of people versus Dr. Harold Elmer Blazer for the slaying of his idiot daughter, which has held the stage in the Arapahoe district court here for the past week and echoes of which have reverberated throughout the length and breadth of the land, will be given to a jury of farmers and laborers for decision before tonight.

This was the belief this morning of attorneys on both sides following an announcement late last night by Prosecutor Joel Stone that the state rested, after two days and a night session of expert testimony during which three defense alienists testified that old fashioned doctor could not distinguish between right and wrong on the day the "human homicide" was perpetrated.

In rebuttal, the state presented two alienists who declared the defendant was sane and could differentiate between right and wrong on the fateful day, but under cross examination by Defense Attorney L. D. Mowry, the state's alienists made repeated admissions in answer to an involved hypothetical question that were considered favorable to the defense contention.

Court did not convene today until 1 p. m., suspending the morning session in observance of Armistice day.

Defense Counsel Mowry announced at adjournment last night that he would be prepared today to present a motion to the court that he expected to demand a directed verdict of acquittal.

Mowry in his motion is expected to claim that the state has failed to prove that the victim of the alleged crime—the "human hulk" that had lived for 33 years a malformed, helpless imbecile, unable to talk, walk, or even feed herself—was a "human being as contemplated by the statutes of Colorado."

Dr. Powell Coming To Conference Here

Dr. Henry Powell, superintendent of the Steubenville district, will preside at the first quarterly conference of the M. E. church at 7 p. m. Wednesday at the church.

All members are asked to be present promptly and leaders of department are asked to present a written report of their work and future plans.

COOLIDGE PLACES ROSE ON SOLDIER'S MONUMENT

But Business Goes On As Usual In National Capital Today.

Washington, Nov. 11.—Seven years ago today the most pregnant stillness in all history settled over a war-weary world.

The big guns, stretched along a dozen fronts, a third way round the world, ceased to belch their flaming death, and fifteen million men laid down their arms.

The silence was broken only by the world-wide rejoicing of half-crazy war-worn peoples—Paris was a madhouse, London a bedlam, New York in chaos, Washington little better. They danced the full length of Pennsylvania ave that night.

Judge Charges Jury After Defense Clings To Accident Claim.

DEFENDANT TELLS SHOOTING STORY

Frank McLain's Slayer Says Pistol Was Discharged Accidentally.

Lisbon, Nov. 11.—"If I could say to George Anderson to get out of the court room and let booze alone I'd do it, but I can't," declared Pros. Atty R. M. Brookes, in his closing argument to the jury in the case wherein Anderson is charged with second degree murder.

"The state is not malicious but I have a duty to perform, I have never had a more difficult case in my life. You will remember how he called me Bob and I called him George and we were friends but even so I cannot shrink my duty."

During the argument of Mr. Brookes and his co-counsel, Blaine H. Cochran, the state maintained that the shooting of Frank McLain by George Anderson was not an accident. It also maintained that the brain of Anderson was befuddled with liquor the night that McLain was shot. Mr. Brookes said that the story of Anderson did not ring true so far as accidental shooting was concerned and that it was his opinion that the shooting was not an accident.

Goes To Jury

Atty Frank E. Grosshans and his co-counsel, G. T. Farrell, presented the argument for the defendant. Both maintained the shooting was an accident and that "if Frank McLain could communicate with us today he would say 'free George Anderson. It was an accident and don't punish him for what he was not responsible.'"

Arguments to the jury were limited to one hour and ten minutes and at 1 p. m. Wednesday Judge John B. Worley began his charge to the jury, which consumed about 45 minutes. The case then went to the jury.

Lisbon, Nov. 11.—Testimony in the case of the State of Ohio against George Anderson of East Liverpool, charged with murder in the second degree for the death of Frank McLain, came to a sudden close at 3 p. m. Tuesday.

MITCHELL PERMITTED TO PROVE CHARGES

Jury Of Generals Rules Colonel May Offer Testimony To Prove Truth Of Criticisms As An "Absolute Defense."

Washington, Nov. 11.—Col. William Mitchell scored a distinct victory at his court martial today when the jury of generals ruled the flying colonel could offer testimony to prove the truth of his criticisms a "mitigation" or "absolute defense" to the charges under which he was brought to trial.

The ruling was handed down by Col. Blanton Winship, law member, and concurred in by the full court. As a result the War department will call 36 defense witnesses from all parts of the country to testify in Mitchell's behalf.

The issue was raised when Col. Sherman McDaniel, trial judge advocate, contended the defense could call witnesses only in "extenuation or mitigation." This proposal was bitterly opposed by Rev. Frank R. Reid (R) of Illinois, Mitchell's counsel, who said the flying colonel would prove all his charges "as an absolute defense."

Washington, Nov. 11.—Papa operates the family radio set, but mama designates what stations papa shall get, according to a nationwide referendum conducted by T. Atwater Kent of Philadelphia, made public at the National Radio conference today.

A questionnaire disclosed that 80 per cent of the 10,000,000 radio sets operated in the United States are handled by the "man of the house," with the "lady of the house" directing the job.

Sixty seven per cent of the sets are used every day in the year, while in the winter 98 per cent operate every night, the survey showed.

5 PERSONS BURNED TO DEATH AS FIRE SWEEPS APARTMENT

Father And Four Children Perish; Six Families Made Homeless.

East Orange, N. J., Nov. 11.—Five persons were burned to death when flames swept their apartment on the third floor of a six-story frame dwelling at 463 Amherst st. early today.

The victims, a father and his four children, were trapped in their bedroom. The mother escaped death by leaping into the arms of a neighbor, with one of her babies in her arms.

Four persons were injured, one of whom is expected to die. The dead: Joseph DeStefano, the father; Mary DeStefano, eight years old; Minnie DeStefano, six years old; Rose DeStefano, four years old; Stanley DeStefano, two years old.

The mother, Mrs. Anna DeStefano, was the first to awaken after the fire broke out. She leaped to the roof of a porch 50 feet below. Then she hurled the child into the arms of George Lasala, a neighbor, who stood on the ground.

Six Families Homeless

Both mother and baby were suffering from burns and they were taken to Orange Memorial hospital.

The other injured were Fireman Peter Loughlin, who was burned about the hands and face and overcome by smoke, and Thomas Riley, 30 years old.

Mrs. DeStefano screamed to firemen to go back and get her husband and the children. When the firemen got up to the bedroom, all five were dead.

So was the family's pet, the playmate of the kiddies—a little puppy. His charred remains were found close to those of the children. He had crawled over to the children, as if for their protection.

The fire spread to a bath back of the house where six horses were stabled. The horses were led to safety and the flames quickly brought under control.

Origin of the fire could not be determined. It is believed to have started in the DeStefano apartment. It spread through the entire structure leaving six families homeless. They escaped in their night attire.

LOCKED IN ATTIC AS MEN FLEE

Joshua Hoopes, 72, Robbed Last Night At Home On Salem-Winona Rd.

ROBBERS SECURED ONLY \$12 HE SAYS

Searched House But Took Nothing; Motorist Also Held Up.

Joshua Hoopes, 72, who lives four miles south of Salem, on the Salem-Winona rd., was held up in his home about 8:30 p. m. Tuesday by four unmasked men robbed of about \$12 and then locked in the attic by them.

Mr. Hoopes heard a knock at the front door and when some one came around to the back door. His "visitors" were four young men, unmasked, each with a gun and a flashlight. In some way they got the light out and told Mr. Hoopes to put up his hands and turn his back.

He put up his hands but did not comply with the request to turn his back. Again he was told to turn his back, which he did. He was ordered to turn over his money and granted the request.

While Mr. Hoopes was not sure of the exact amount of money he gave them he thought it was about \$12. The bandits searched the home, but took nothing, passing up the aged man's watch and the silverware. They told Mr. Hoopes that they had broken jail, had stolen an automobile and all they wanted was the money.

Locked In Attic

In departing Mr. Hoopes was informed by his "visitors" that they would leave him tied, using a part of his clothesline. He argued with them against this, telling them that he was alone. Their next suggestion was to chloroform him, and he persuaded them not to do that.

Then they told him that if he would not call anyone for a half hour they would lock him in the attic. This he agreed to do and was taken to the attic and locked in, while the robbers made their getaway.

Mr. Hoopes was not sure that he "kept quiet" for a half hour. From the attic window he saw his neighbor, James Stamp, who lives within calling distance, come out into the yard. He raised the window and called to Mr. Stamp, who released him from his "prison."

He stayed at his home last night alone, and the robbery was not reported to the Salem police and Sheriff George Wright until Wednesday morning.

A sewing machine agent, who claims Salem as his home, was held up in Winona Tuesday evening by two or three men, who are thought to be members of the same gang who operated at the Hoopes home. The agent stated that the men wanted money, but got none from him. He ran into a grain elevator in the village, and the holdups were probably frightened away.

GOULD TRUSTEES ARE HELD GUILTY

Charges Filed By Children Of Late Jay Gould Are Sustained.

New York, Nov. 11.—Former United States Senator and Supreme Court Justice James A. O'Gorman, who for the past year has been taking testimony as referee in the case involving charges by children of the late Jay Gould, railroad king, against trustees under their father's will, today handed down a sensational opinion declaring the trustees guilty of the charges.

The opinion covers 26 printed pages. The action in which the hearings were held was brought by Kingdon Gould and Schuyler Nelson Rice executors of the will of George J. Gould, and by Edwin Gould, Howard Gould, Helen Gould, Sheppard as executors and trustees under the will of their father, the late Jay Gould, against the same parties individually and as executors and also against George J. A Drive On Mistletoe

It is good to know that at least one of the Christmas decorations may be used without stint, so far as the forest conservationists are concerned. The Department of Agriculture not only does not cherish the mistletoe, it is bent on tearing the plant out of national forests as an unworthy parasite, all sentimental associations notwithstanding. There is no hint of censorship in department's edict, but if its policy should be adopted successfully on all land some substitute must ultimately be found for the mistletoe's traditional temptation.

Meanwhile, we take it, the mischievous mistletoe may be hung with a clear conscience, with a sense of doing something at once pleasurable and meritorious—a rare combination. The Christmas tree may also be enjoyed without compunction, for it is settled by the forest experts that if the trees are properly selected they can well be spared. The holly and the laurel are in a different case. Too great inroads are made on their supply. The holly may yet be saved, as the custom of planting it spreads both in nurseries and private grounds. "Save your holly berries and plant them at once in pots. Have your own holly trees and some to give your friends. There will soon be no more holly unless we all help." That is the good advice of the New York Botanical garden.

As for the mistletoe, it seems somewhat ruthless to talk of rooting it out entirely, but if it is really a pest its chances of survival are good. Can anybody name a pest that has not the secret of endurance? If the mistletoe is rightly classified as such it will certainly live, to the fair jeopardy at Christmas time of the granddaughters of the exterminating forests.

What They Want

WILL HAYS, whose mission appears to be to bring the motion picture closer to the great throbbing, composite heart of the people, tells us that a "set" costing \$300,000 was erected on a 65-acre lot to supply a film footage which requires six minutes to view. This fixes the cost of a part of one "movie" at \$50,000 a minute.

A nation which has become addicted to luxury demands elaborate settings for its scenarios. Yet often some of these elaborate productions flicker out in a week or two and are seen no more; while dramas whose action takes place under a clump of eucalyptus trees, for reasons unguessed by the directors run for months and months.

The business of giving the public what it wants is precarious. It becomes more precarious as the question of what is more likely to appeal to the general taste is left to the directors, who, of late, have become the autocrats of the motion picture world. Now and then an intelligently written scenario escapes the scrutiny of these gentlemen and somehow gets on the screen. When this happens the picture houses throughout the country do a thriving trade and write to Hollywood for more pictures of the same sort.

But in defense of the producers it may be said that the elaborately set films, which may be produced by the mere spending of large amounts of money, are more often than not successful.

Illiteracy

By FREDERIC J. HASKIN

Washington, Nov. 11. — A campaign against illiteracy in the United States is about to be waged under the direction of the bureau of education. The last census of the United States showed that this country ranks tenth in illiteracy, which seems appalling in a nation which is considered by its citizens as a leader in the progress of the world. The aim of those interested in this campaign is to reduce the amount of illiteracy before the next census is taken in 1939.

L. R. Alderman, a prominent educator of Portland, Ore., has been appointed as specialist in adult education in the bureau. Mr. Alderman has had a great deal of experience along this line. Furthermore, his interest in adult education amounts almost to a hobby.

As we put it, "it is wonderful to get paid for doing some thing you like."

Mr. Alderman has been a county school superintendent, a university professor in the department of education, state superintendent for the state of Oregon and city superintendent of the city of Portland, Ore. During the World War he went to France and worked with the Army Education Corps. Afterwards he inaugurated a plan of education in the navy which now reaches 25,000 men. He was also a member of the Survey Staff of the New York public schools.

Although Mr. Alderman has had much experience in general educational work, he has always been particularly interested in adult education. He has watched and studied the various methods applied to teaching adults. From this study he has come to the conclusion against learning to read and write. It is simply told to show that many so-called illiterates have native ability which if directed in the right way may take them far.

When teaching an adult Mr. Alderman believes that consideration should be given to what the pupil has learned by actual experience. For instance some golf instructors giving lessons to one who perhaps has played golf a little will take no note of that fact. They begin their instruction on the basis that the pupil has never played golf and knows absolutely nothing about it. They tell him so much at one time that he becomes confused and consequently gets little or nothing out of the lesson. On the other hand an instructor who gets the best results will first observe just how the pupil makes his strokes and holds his club. He then calls the attention of the pupil to any incorrect method he is using and shows him how it should be done.

The bureau of education hopes to decrease adult illiteracy through the co-operation of the states. It is planned that each state shall appoint a commission and through this carry out a plan which is to be worked out by the bureau. Several states have already appointed commissions and are preparing to work vigorously toward reducing illiteracy so that when the next report of the bureau of the census comes out the United States will make a better showing.

Q. How do hunters of seals in Alaskan waters know what seals they may kill and what ones they may not kill? F. B. L.

A. Under the law passed by congress in 1917 a reserve of 5000 three-year-old male seals is required, but this number is not regarded as adequate to supply the future needs of the herd in the Pribilof Islands. During the season of 1935, therefore, 3,250 three-year-old seals were reserved from killing. They are marked by shearing the fur from the tops of the heads.

Q. About how fast should a person lose weight while reducing? D. K.

A. The Public Health Service says that in effecting reduction of weight care should be taken that such reductions are not effected too rapidly. A loss of from 1 to 1½ pounds per week is satisfactory and from four to six months should be taken for a reduction of 25 pounds. This gives the dieter an opportunity to readjust themselves properly.

Q. What is sea coal and for what purpose is it used? S. D. G.

A. Sea coal is merely coal dug from the earth; formerly so-called to distinguish it from charcoal because it was brought to London by sea.

Q. When was the Order of the Eastern Star founded in the United States? O. W.

A. It was a gradual evolution of an earlier organization of Mason's families, and the first grand chapter was organized in Michigan in 1867, the first chapter listed under it being Coldwater, No. 1.

What's the Reason You Can't Afford A New Overcoat?

It's alright for you to tell that to us—but you'd fly off the handle if we told you you couldn't afford a new overcoat this winter.

Only about five per cent of the men who plead this excuse are correct—the other 95 per cent are shielding a threadbare garment with a threadbare alibi, when they should own the happiness that a new Michaels-Stern Coat can bring.

Say—what's this life anyway?

If all the money that came into your income stayed in—business would be poor—trade would be stagnant—employment would be lacking.

That's why we ask—what's to prevent you from having a new Michaels-Stern Overcoat?

Certainly not the prices—

ANDERSON
Continued from first page
Tense silence prevailed. In No. 1 court at times when the defendant was being questioned by his counsel, Attorney George T. Farrell, I don't know who is associated in this case with Attorney Frank E. Grubbs of East Liverpool, and during the cross examination of Prosecuting Attorney Robert M. Brooks.

Admits Drinking
The witness admitted of drinking Oct. 3 last.

"I went home to supper that night at about 5 o'clock and stopped to buy some meat and some groceries. I cooked the supper that evening," the witness went on to relate. "I left home shortly before 7 o'clock for the garage at Broadway and Roll road street and started for home between 10:30 and 10:45 o'clock that night, and when I went to start my car I found that the key was missing. Then I called for the McLean taxi to take me home. Frank McLain came with a car. I had known him for two years, and I had sold the company a car.

"After we reached the house, I got out and asked Frank if he would come in and he said that he would. I got the wrong key out to open the door, and my aunt opened the door. She turned the lights on on the first floor which is the only part of the house wired, and I went back to the kitchen to get a drink of water.

"I then went upstairs and Frank followed me. I turned to Frank and asked for a match, he turned back and started down stairs for some. I then proceeded upstairs. I felt around on the dresser for the matches, and then went over to the wash stand, also looking for matches.

Went Off Suddenly
"As I reached about the wash stand for matches I knocked the gun from the marble top, and it fell to the floor. I kept the gun in my hand on the top of the wash stand. The trigger was always kept back.

"I reached down to pick up the gun and just then Frank came into the room, and as I was reaching for the gun, the first thing I knew he was gone. I was then that Frank said 'My God I'm shot!'

"The gas was lit after the shot. My aunt came upstairs first and I told her to get a doctor quick. She took the gun, I knelt down over him and began to raise him up, but he complained and I then laid him back and put my hands over the wound. My hands were covered with blood and I washed them off at the city utility.

DR. CARNES TELLS ROMANCE OF STEEL

De-discovery Of Lost Art Explained In Fascinating Manner.
The story of the re-discovery of the lost art of the Damascus sword blade and demonstrations of Car-Van steel blades by Dr. W. Stuart Carnes, president of the Canton Cutlery Co. of Canton, formed an interesting entertainment for members of the Salem Rotary club Tuesday noon at the Elk home.

Many centuries ago a certain family in Damascus knew the art of making a sword blade flexible enough to permit bending, and hard enough for the blade to take a razor edge. When the last member died, the secret art was buried with him and since has been known as the lost art of the Damascus sword blade.

Soon after the discovery of vanadium at 16,000 feet above sea level in the mountains of Peru, Dr. Carnes began experimental and research work with the idea of developing a formula of steel which would combine hardness, flexibility and toughness. After many years of labor he has developed Car-Van steel, which he demonstrated.

Dr. Carnes exhibited a steel blade which shaved dry hair from the forearm and was bent until the point touched the hill. Another demonstration of the qualities of this steel was the driving of a pocket knife blade through one-eighth inch steel plates without breaking or bending the point.

The speaker's story of his research work and of the results obtained was fascinating and after the meeting many Rotarians grouped about him eager to see and hear more about his discovery.

Next Tuesday Rabbi David Alexander of Akron, will speak before the Rotarians.

EFFORTS TO HALT IRISH ARMISTICE EXERCISES FAIL

Dublin, Nov. 11.—Efforts to break up the Armistice day memorial exercises here failed.

Thousands gathered to witness the unveiling of a memorial cross to the Irish war dead at 11 o'clock.

At 10:59 smoke bombs were ignited throughout the crowd in an effort to start a stampede, but the crowds were not to be stampeded.

The attempt at disorders is attributed to Republicans who have condemned the war and its British associations. During the past few days there have been determined attempts to frustrate the Armistice day services.

U. S. COMMERCE BOARD TO BARE ROAD'S HISTORY

Washington, Nov. 11.—Incensed at accusations that it could have prevented the Chicago, Milwaukee & St. Paul railroad being thrown into a receivership if it had approved certain financial plans submitted to it by the road's directorate, the Interstate Commerce Commission plans to disclose some sensational facts at the hearing here on Nov. 30, on the St. Paul's financial history, it was learned today.

LEADERS DEMAND ADDITIONAL CUTS IN REVENUE BILL

Fight To Reduce Taxes May Be Carried To Floor Of Congress.

Washington, Nov. 11.—Having already floated Secretary of Treasury Mellon by cutting taxes in the new revenue bill well over \$300,000,000, some members of the house ways and means committee today were preparing to carry a fight to the floor of congress to lop off another \$75,000,000 or \$100,000,000.

Unlike former years, some of the strongest opposition for further slashes is coming from Republican leaders in administration ranks.

President Coolidge himself was said today to look with favor upon the general work of the committee in slashing the nation's tax bill. It was represented as feeling that if the new treasury can stand additional cuts congress would be justified in making them at this session, although some features of the new bill are no more pleasing to the president than they are to some members of the committee.

In most respects the bill represents a compromise between Republican and Democratic leaders, and as such is a non-partisan measure, which chairman, and Rep. Garner, (D) of Texas, ranking minority member, maintain it is.

Rep. Longworth, (R) of Ohio, speaker-designate, and Rep. Madden, (R) of Illinois, chairman of the powerful appropriations committee, both believe the house could well raise the cut to \$350,000,000, or even higher, and still not unduly disturb the treasury. The house may do this very thing.

When finally completed by the committee, the total reduction is expected to be about \$215,000,000.

ADMITS ATTACK ON HOME INMATE

New York, Nov. 11.—Henry Wilson Johnson, formerly superintendent of the children's home of the Long Island Baptist Association, unexpectedly appeared in supreme court in Brooklyn today and pleaded guilty to criminally attacking Elizabeth Sullivan, 13 years old, one of the inmates of the home.

Tax On Revolvers And Pistols Aimed At Curbing Crime

Washington, Nov. 11.—The house ways and means committee drafting the new revenue bill today took definite steps designed to assist in the curbing of the crime wave all over the country.

Rescindng its previous action, the committee voted to place a 10 per cent tax upon pistols and automatic revolvers. Before, the committee and voted out all levies on firearms and ammunition, with an estimated cut of about \$3,664,000 annually in revenue.

Youthful Outlaw Has Eluded Posse

Police Chief George Dow, shot down by Fellows here, was much better today.

Wants Catholic in White House, to End Bigotry

Senator William C. Bruce of Maryland, Democrat and Protestant, says it is high time to elect a president of Roman Catholic faith to show that the United States is not swayed by intolerance and religious bigotry. He's an Al Smith booster.

COOLIDGE

Continued from First page
States were laying the foundation of a great new scientific industry—radio—and everywhere there were signs of "normalcy."

President Coolidge, almost alone of public officials, commemorated the anniversary of the great peace.

Accompanied only by the secretaries of the war and navy and Mrs. Coolidge, the president left the White House shortly before 11 o'clock and motored across the Potomac to the tomb of the unknown.

Places Rose on Tomb
There at exactly 11 o'clock—the hour of stillness—he stepped quietly up the marble sarcophagus and laid thereon a floral wreath. For one full minute, there were bowed heads and quiet stillness.

Then came Mrs. Coolidge to place on the tomb a single rose. That was all.

Elsewhere through the capital, the observance of the peace hour was wholly voluntary.

In many government departments, clerks laid down their pens, and stenographers stilled their clacking typewriters for two minutes on the stroke of 11. In many there was no observance at all.

In stores and offices in the city proper, it was "business as usual."

Honor Wilson
Late this afternoon, Bethlehem chapel, which towers over the city on the heights of Mount St. Albans, will witness another purely voluntary service to commemorate Woodrow Wilson. The chapel is his tomb.

The Rt. Rev. James E. Freeman, Episcopal bishop of Washington, will deliver a short sermon on the labors and character of the wartime president, there will be the soft chanting of a chorus, and floral offerings laid above his war-wrecked body.

In the marble amphitheater at Arlington there were memorial services, conducted by the Rabbi Morris B. Laxaren of Baltimore, one of the quartet of army chaplains that officiated at the burial of the unknown four years ago. In a few of the churches there were special prayer services, and some of the patriotic organizations held short memorial meetings.

RAILROAD MERGER BEFORE COMMERCE COMMISSION AGAIN

Van Sweringen Brief Asks
Board To Encourage
The Undertaking.

Washington, Nov. 11. The Van Sweringen "million dollar railroad merger" came before the interstate commerce commission today when counsel for the two former Cleveland newsboys presented a brief asking the commission to "encourage the constructive undertakings" of the Van Sweringens and thus carry out "the modern federal policy which crystallized in the transportation act of 1920."

By the proposed unification they seek to create out of the Chesapeake & Ohio, Erie, Pere Marquette, Hocking Valley and Nickel Plate railroads, one system having approximately 2,160 miles of road in the United States and 337 miles in Canada.

To finance this gigantic scheme they propose to issue \$345,000,000 of capital stock, consisting of \$155,050,000 preferred and \$189,950,000 of common. It is proposed to issue the Nickel Plate, under which the unified system is to be known, \$25,865,666 of preferred and \$30,406,464 of common, and to issue \$129,116,502 of preferred and \$159,316,597 of common in exchange for issued stock of the other roads and the outstanding convertible bonds of the Chesapeake & Ohio and the Erie.

Encourage Grouping.
The brief asserted that the "plain intent, purpose and effect" of the transportation machine, largely encouraging the grouping of the numerous separate railway properties of the country into a limited number of strong systems under the commission's supervision. The courts have uniformly held that this legislation is constitutional and valid, it was claimed.

While the proposed unification plan will preserve and increase effective competition in the territory to be served by the merged lines, it will result in operating economies and lessening the cost of transportation more than \$6,000,000 annually, it was claimed.

"The bonds at par of the unified system, together with the outstanding in the hands of the public will be reduced more than \$100,000,000, without any increase in funded debt or fixed charges. The public authorities of all states favor the unification.

"The financial structure of the new company will be well-balanced, and its prospective earning power will be such that contemplated dividends can be paid, and substantial amounts of 20 percent or more of net income, before deducting interest on funded debt, carried to surplus."

"Regarding terminal points, notably Chicago and Buffalo, certain of the roads involved either occupy leased facilities or own facilities not proportionate to their prospective needs."

BOY BANDIT WILL FACE TWO CHARGES

Cleveland, O., Nov. 11.—Joseph Olach, 21, "drugstore cowboy bandit" also charged with shooting to kill, is held here today by detectives and will probably be turned over to federal authorities because that action would bring the "boy bad man" a longer prison term.

White-faced and weak, he sat and explained to detectives how he met "Nick from Chi." how they held up drug stores, waited on customers and pocketed the loot and how Nick had shot Edward Behutinsky in the drug store robbery here.

Olach said Nick double-crossed him and skipped with \$1,000 they had stolen jointly.

Federal charges of robbing substantial stations in the drug stores would be placed against them, it was said today.

Farm Bureau Opens A Training School

Columbus, Nov. 11. A Farm Bureau Training school opened here today at Hotel Virginia. About 200 townships in 15 counties of Ohio are represented by the farm leaders attending these sessions. The program calls for talks by Gov. Donahey, I. an Alfred Vivian, O. S. U. College of Agriculture, officials of the Ohio Farm Bureau Federation and others.

Those attending the school will lead a two months campaign seeking, through organized efforts to improve social institutions, such as the farm home, rural school and church, and the rural communities.

JUDGE FARR MAY RUN FOR GOVERNOR

Urged By Friends. Lisbon
Man Says He Hasn't
Decided On Move.

Judge Louis T. Farr of Lisbon, who has frequently been mentioned as a possible candidate for the governorship, would neither deny nor confirm the report today that he would enter the race next year.

"I am undecided," the judge said. "I have often felt that if the time ever came when my friends believed that I should make the race, I would consider it."

The judge admitted that much pressure has been brought on him by his friends throughout the 14 counties in eastern Ohio, where he is elected as a judge of the court of appeals, to get into the fight.

"I have been told that now is the time for me to enter the race," Judge Farr said, "but I am not wholly convinced."

The Beauty I owe to France

By Edna Wallace Hopper

I have made 34 trips to France in my search for beauty. I spent my 1925 summer vacation in Paris, and I found some remarkable advances.

That's how I got the best beauty helps in existence. As a girl I went to France for the best she had to offer. And for 40 years she has given me all her new discoveries. These I have used to gain my fame as a beauty, and to keep my youth.

Now I offer you the best helps I have found. All toilet counters supply them as Edna Wallace Hopper's beauty aids. Made exactly as I use them. And most of them combine several helps in one.

I am trying to induce every girl and woman to learn how much they mean. That beauty and youth millions may in me show what such helps can do. I want all to share them.

One is my Youth Cream. It combines many helps. These include products of both lemon and strawberry. All the best that science knows to foster, feed and preserve the skin.

Youth Cream comes in two types—cold and vanishing. I use one at bedtime one in the morning. Never is my skin without it. To that I largely owe my wonderful complexion, my girlish contours, my rosy bloom.

Send this coupon for a sample tube. My latest Beauty Book will come with it. Learn what a cream can do. Even a few uses will bring a revelation.

For Trial Tube

Mail this today to Edna Wallace Hopper, 536 Lake Shore Drive, Chicago. Enclose 10c for postage and packing. I want to try Youth Cream.

NEIL COMMENDED FOR HIS EFFORTS AT COUNTY HOME

Special Committee Makes
Report Of Conditions
To Commissioners.

Desiring to be informed as to the existing conditions at the County Home, the county commissioners have just been presented with a report of a survey of that institution by a committee composed of County Agent Floyd Lower, Joshua Brantingham and Willie Rupert, members of the County Farm Bureau.

A similar report was requested by the commissioners from the Farm Bureau two years ago, and the same committee served with the exception of Mr. Lower, who has succeeded C. E. Rowland.

It has been the intent of the commissioners to make some improvements at the County Home as have been suggested in the report of the committee, but they lacked funds, due to the improvements of the main buildings during the last year.

Stress has been laid on the source of water supply, and it has been urged in the report that improvements be made along this line immediately.

Supt. John P. Neil has been commended for the work he has performed and for the increase in the volume of different crops produced on the County Home farm lands.

Livestock is declared to be in excellent condition but a new poultry house is urged, so that from 500 to 1,000 head of poultry can be cared for.

PAINLEVE SEEKING FINANCE ARMISTICE

Paris, Nov. 11.—Premier Painlevé was striving today for an armistice with the finance committee of the Chamber of Deputies.

The committee, having broken with the premier over his financial program, appeared to be standing pat and not disposed to relent.

The premier on the other hand is just as determined not to go down to defeat at the hands of the committee. If he fails today it is expected that he will take his plan before the Chamber of Deputies tomorrow and stand or fall upon their vote upon the plan.

"I won't run, if I go down it will be on the field of battle," said Premier Painlevé, when asked whether or not he would accept the rebuff of the finance committee.

that the members of the finance committee have agreed upon a plan which they will submit to the premier for his consideration and that they are unanimous in this plan.

The left wing which has been more or less disintegrating during the past few days, as far as solidarity on the financial program goes, is now reported to be hearing a solid opinion and if the left wing can reach a basis for agreement with the premier, then the chances of the premier's crisis being bridged will be much better.

MANY CANDIDATES FOR OHIO CONTEST

Republicans To Have Many In Field; Donahey Has Little Opposition.

Columbus, Nov. 11.—Within a few short weeks Ohio gubernatorial candidates will line up at the barrier and begin the race for the respective party nominations.

The contest at this stage is featured by a lack of interest on the part of the electors, in spite of their burly activities of the potential candidates.

Only the wildest prediction can be made as to number of Republican who will seek to wrest the chief executive's chair from Gov. Vic Donahey, but it can be definitely stated that the governor will have no organized opposition in his own party if he—as it seems certain he will—announces himself as a candidate for a third term.

James Beatty, East Liverpool pottery merchant, announced as a candidate against Donahey several weeks ago, but because of the poor showing he made in the last election against the Democratic chief he is not considered a dangerous contender.

Among the Republicans most mentioned as candidates at this time are Secretary of State Thad H. Brown, Lieutenant Governor Charles H. Lewis, Carmel A. Thompson of Cleveland, Myers V. Cooper of Cincinnati and C. L. Knight of Akron. Fully a dozen others, however, are mentioned by their friends and must be regarded as potentially in the race.

Information reaching the capital is to the effect that former Gov. Harry L. Davis, defeated by Donahey in the last election, will not again be a candidate, but will probably announce for congress from the Cleveland district.

REDUCE TAX BILL OVER \$310,000,000

House Committee Exceeds
Amount Recommended
By Mellon.

Washington, Nov. 11.—Overriding the recommendations of Secretary of the Treasury Mellon, the house ways and means committee reduced the total of the nation's tax bill by approximately \$312,000,000.

Mellon asked that the reduction not exceed \$200,000,000. The committee, however, cut the total by repeating or drastically slashing many excise and so-called nuisance taxes. Further reductions also are in effect when the committee revises the graduated rates on surtaxes.

The tobacco and alcohol taxes were cut nearly in half by the committee, practically all of the nuisance levies were repealed, including the taxes on automobile trucks, tires, necessities and wagons.

The occupational brokerage taxes were repealed.

The committee eliminated the stamp taxes on these conveyances, but refused to repeal the club dues of 10 per cent and the produce exchange rate of \$1 for each \$10,000.

The committee did not make a definite decision on rates but voted to remove the theater tax on the legitimate spoken drama, the opera and classical musical recitals and retained the levy on moving pictures, vaudeville and the so-called musical revues.

Washington—Letter carriers are to have Christmas off like other folks. There will be no Christmas deliveries of ordinary mail.

Pimples

What can I do?

"Oh, why can't I have a skin like other girls? Why do I have to have these ugly pimples, blotches and blackheads?"

"If I could only find something that would clear up my skin and give me back my soft, rosy complexion, I know I would be the happiest girl in the world! What can I do?"

Is that you talking? If it is, you don't have to worry a minute! Just lather up the rich, red blood in your face. Then your skin will be as clear and soft as anybody's.

That's what S. S. S. has been doing for generations—helping Nature build rich, red blood! You can build red blood-cells so fast that the impurities that cause breaking out on the skin hardly get into the system before the pure blood annihilates them—kills them right out—stops them from breaking out through the skin.

And then this rich, red, pure blood feeds and nourishes the tissues of the skin and keeps it looking healthy.

That's all there is to it. Healthy, vigorous, red blood such as S. S. S. helps Nature build, makes you healthy all over. It beautifies your skin—drives away pimples, blackheads, blotches, rash, boils and eczema—gives you back your appetite—builds firm, plump flesh and fills you full of new life and energy.

All drug stores sell S. S. S. Get the S.S.S. It's more economical.

MARY PICKFORD HERE

From the sweeping trains and velvet of the costume drama, with stilling phraseology and stately mien to the razzamuffin clothes of "Little Annie Rooney" and the fighting, biting, skin-kicking, roystering of New York city's East Side slums this is the screen transition Mary Pickford, foremost screen actress, has encompassed in her new photoplay, a United Artists Corporation release, appearing at the State theater four days, starting Wednesday.

Miss Pickford is perfectly at home in this story of New York's tenement district and the characterization of little Annie Rooney fits her as the proverbial glove. She takes the role of a 12-year-old daughter of a popular policeman and leads a group of dirty-faced youngsters in rough and tumble battles against a rival gang, and has a secret infatuation for Joe Kelly, a strapping big truck driver and pal of her brother, Tim Rooney.

Gone are the gorgeous costumes. No longer are the golden curls of "The World's Sweetheart" dyed and high on her head, instead they hang in tangle braids down her back. Cheap calico, darned and undarned stockings and down-at-the-heel shoes make up "Little Annie Rooney's" garb. She seems to wear anything like a hat; once in a while she wears a boy's cap.

The gangfights in "Little Annie Rooney" are described by those who have been associated with Miss Pickford in the studio as screamingly funny scenes. The star, living up to the 2000 old Irish name, Rooney, starts a fight and certainly ends it. Leading her gang of ragamuffins, she pelts bricks, vegetables, ancient fruit and tin cans with a marvelous accuracy. She fights with her fists, fights with her head, and kicks with her feet as a score of rival gangsters

swoop down and she is cut off from her pals in a strategic retreat.

"SHE WOLVES"

Paris—gay capital of frolic and fun, broken hearts and blasted fortunes—forms the picturesque locale of William Fox production of "She Wolves," which opens a two day engagement at the Grand theater, Thursday.

Paris—famed to the far corners of the earth for its eternal spirit of gaiety, with its feverish attractiveness, concealing packs of she wolves—vividly brought to the screen in this latest attraction.

Beautiful Alma Rubens portrays the role of a loveless bride who abandons her country husband to the dangers of Paris. Jack Mulhall is cast in the leading role opposite the stately star and, with extreme finesse, interprets the outcast husband. Harry Myers lends his buoyant personality to a humorous role—a companion to the luckless husband among the human beasts.

Diana Miller is seen as the "Queen of the Pack." Judy King is a bewitching little girl of the cafes.

"She Wolves" was adapted from the stage play, "The Man in Evening Clothes."

DRAIN KEEPS UP ON TREASURY OF GREAT BRITAIN

Outlay Exceeds Revenue By
180 Millions For The
Half Year.

London, Nov. 11.—Despite urgent appeals from all quarters for national economy and curtailment of expenditures, the drain upon the British Exchequer, watched over—none too successfully by his opponents charge—by Winston Churchill, continues to be heavier and heavier.

Official records of state revenue and expenditure for the half year ended on Sept. 30, show that expenditure exceeded revenue by \$180,000,000. The deficit last year at this time was \$60,000,000 but Philip Snowden, the labor chancellor of the exchequer, managed to balance the account by the end of the financial year and show a small surplus.

The odds are all against Mr. Churchill being able to keep expenditures for the full year down to the approximately \$400,000,000 for which he budgeted, or to collect that amount in revenue.

Usually drains upon the treasury during the second half of the year are heavier than during the first half, while revenue at the same time increases.

This year many unlooked for outlays are going to force expenditures up during the second half of the year. Most of the cost of subsidizing the coal industry—which cost the government \$7,500,000 during August, the first month—has still to be borne. Furthermore, the cost of the Admiralty's cruise program, which was not budgeted for, has still to be met with little likelihood that the increased expenditure will be balanced by economies in other Admiralty departments.

On the revenue side experts figure there is bound to be a drop after Jan. 1, when the expense reduction on income tax goes into effect. Although Mr. Churchill budgeted for expenditures \$25,000,000 in excess of last year's at the present rate of receipts and expenditures, it is estimated the excess will be approximately \$190,000,000.

Next year's prospects don't look any brighter for Mr. Churchill. Although his announced policy is to reduce national expenditures by \$30,000,000 annually, beginning next year the exception of the Pensions' Ministry, have asked for increased funds next year over those of this year.

"Fifi" Stillman and Rockefeller Grandson Deny Rumors of Romance

Love for young Fowler McCormick, grandson of John D. Rockefeller, is reported in New York to be behind the new divorce action of Mrs. Anne U. Stillman, against her husband, James A. Stillman, whose suit to have Fred Beauvais established as the legal father of little Guy Stillman she defeated. Both deny the rumor as they have on previous occasions. Young McCormick is seen in the clothes he wore as a workman in a Milwaukee factory.

TEXTILE INDUSTRY IMPROVES, REPORT

Washington, Nov. 11.—Improvement in the textile industry, recently referred to as one of the few weak spots in the national business fabric by Secretary of Commerce Hoover, was announced today by the Federal reserve board.

Business experts view the improvement in the textile situation as one of the best prosperity indicators of recent months. The depression in this industry has existed for some time and with the difficulties in the coal industry had been considered as one of the barriers to all around business prosperity in the United States.

LATEST IN STYLE FOR WOMEN

Paris, Nov. 11.—Sleeves are sounding the striking note in new costumes for the winter. After having been somewhat in the shade for several seasons, they are taking on most important dimensions and promise to vie with the flare in the matter of the greatest attention.

Balloon sleeves, or "the melon," as the French have named them, are the most popular ones for coats, made of fur on cloth or velvet ones and the reverse on fur mantles. In size they are about like a small sized melon with a narrow band holding in the fullness at the wrist.

"Violet" cuffs are also very much worn, wide circular, frills like a gauntlet, turning back from the hand and giving a very graceful line. Sometimes they come in white crepe de chine or fine organdie delicately tucked or embroidered. Francis is showing them in antique pink embroidered in black and lined with seal-skin. And a charming afternoon frock in biege drap has beaver revers embroidered in blue and brown.

Make Your Clothes Last Longer

This can be accomplished by removing the spots and stains as soon as they appear.

Hot water takes out fruit stains, but if you use it on milk or egg stain it "drives it in" and makes it worse. Soap on the other hand, takes out grease spots and makes fruit stains worse.

There is a remedy for every stain even the scorched spots on cotton and linen.

Write our Washington Bureau today for the free booklet that tells how to remove 88 different kinds of stains. Enclose two cents in stamps to cover the return postage.

What My Neighbor Says

Is of Interest to Salem Folks

When one has had the misfortune to suffer from backache, headaches, dizziness, urinary disorders and other kidney ills and has found relief from all this sickness and suffering, that person's advice is of untold value to friends and neighbors. The following case is only one of many thousands, but it is that of a Salem resident. Who could ask for a better example?

Mrs. C. Sturgeon, 45 West Green St., says "My back pained so I was miserable all the time. Mornings I felt tired and nervous. During the day, sharp pains shot through my back like a stab of a knife and made me dizzy and light headed. It was hard for me to do my work. I used Doan's Pills and they relieved me."

Mrs. Sturgeon is only one of many Salem people who have gratefully endorsed Doan's Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S PILLS, the same one Mrs. Sturgeon had—the remedy backed by home testimony, 60 years at all dealers. For Mr. M. C. Co., Mrs. Buffalo, N. Y. "When your back is lame—recommend the Name"
